

NORMATIVE INSTRUCTION CPPGBIOEN – 002/2015

Concerning the requirement to publish an article or register a request for a patent before the defense of a Doctoral thesis in the Integrated Postgraduate Program in Bioenergy/FEA

Considering the need for a formal description of the procedures referring to the requirements to obtain the title of Doctor by students in Bioenergy, the Postgraduate Program Commission, using its legal attributions, established the following orientations and procedures:

Article 1 – Up to the date of handing in the documentation requesting the Defense of his/her Doctoral thesis, a student of the Doctoral Program in Bioenergy should have proof of the acceptance for publication of 1 (one) article related to his/her doctoral research program, in a scientific journal classified at the level of Qualis A2 or above in the CAPES interdisciplinary evaluation area.

Single paragraph – acceptance of the caput of this article can be substituted by the register of a request for a patent.

Article 2 – Cases in which the journal is not listed in the Qualis of the CAPES interdisciplinary evaluation area will be evaluated by the Postgraduate Program in Bioenergy Commission.

Article 3 - Special and missing cases will be analyzed by the Postgraduate Program in Bioenergy Commission.

Approved by the CPG/FEA on 17/09/2015

Altered by the CPG/FEA on 14/04/2016
